Location

The conference will be held in Madrid, Spain. The capital of Spain since 1562, is located on the geographic center of the Iberian Peninsula. Because of its central location and high altitude, the climate of Madrid is characterized by warm dry summers and cool winters.

Madrid is a city of great monuments. Among its highlights are the medieval center dating back to the Habsburg Empire and the Prado Museum. But Madrid is not just a cultural destination. It is also a lively metropolis with many pubs, cafes, discotheques and nightclubs open late into the night. Don't be surprised if you get stuck in a traffic jam at four in the morning, and the people you meet are not necessarily going off to work....

What more need be said about one of the finest capital cities of Europe?
